

General Description:

MARMORINO BOND PRIMER is a blend of water redispersable polymer and vinyl acrylic basecoat with selected fine aggregates. It has good flow and good penetration in different surfaces. It is a new generation of coating that gives unmatched and long lasting maintenance-free protection for buildings. It combines both adhesion and alkali – resistant properties. Its serves as a tie-coat in the application of MARMORINO and special effect texture coatings due to its good bonding strength.

Major Uses:

For use on exterior and interior surfaces, like plaster, stucco filler, gypsum boards, concrete and asbestos cement sheeting.

Characteristics and Physical Properties:

Colour	White
Volume solids	75%
Specific Gravity	1.50 +/- 0.5 kg/L
Coverage	5 – 7 m ² /li
Drying time:	
@ 25°C	45 min
@ 35°C	30 min.
Recoating	8 hours
Diluent	Water

Application Method:

Brush, roller, airless spray.

Surface Preparation:

Surface to be primed should be free from any contaminants like oil and other foreign matters. If the surface needs to be prepared before painting, PVA WALL FILLER is recommended to evened up the surface prior to the application of primer and desired topcoats.

Recommended System:

Marmorino Bond Primer	1 coat
Marmorino	2 coats

Storage:

The product must be stored in accordance with national regulations. The product should be kept in a cool and well ventilated place, protected from heat and direct sunlight. Contents must be kept tightly closed.

Cleaning of Tools:

All tools should be cleaned with water.

Packing:

Available in 5 USG, 1USG

Physiological Hazards:

See Safety Indication Sheet

The above information is given to the best of our knowledge based on laboratory test and practical experience. However, as the paint is often used under condition beyond our control, we cannot guarantee anything but the quality of the paint itself. We reserve the right to change the given data without prior notice.
